

Quad-bike & scrambler trails:

Bring your own bikes for rides of a lifetime – groups & families are most welcome. The spectacular mountainous terrain of the Southern Drakensberg is the perfect setting for awesome guided trails that provide fun for the whole family. As we border on the former Transkei, we have literally hundreds of kilometres of unhindered riding terrain. No request is too unreasonable – we've seen it & done it all! Steep mountain tracks (up to 2750m) and challenging river crossings test your technical riding skills. Trails are guided and range from easy to difficult & technically challenging. Along the way there is always time to admire the breath-taking views, cool off in the mountain streams and roost each other in the muddy riverbed!

Chris assesses your ability and tailors the trail accordingly. Chris has lived his life in the area and is an experienced enduro rider – The Roof being one of his favourite races. He loves the technical challenges of the mountains but caters his trails to suit every need. Fun loving & knowledgeable, Chris makes the most of your trail experience, taking you to the best places in the area. Interaction with the locals is his specialty, adding value to your trail - whether it is lunch at a local shebeen or up at Tiffindell, you experience life as we live it.

The area is becoming well known for excellent riding - whether training for The Roof, or enjoying a fun day with the family. Chris has guided riding greats such as Giovanni Sala (7 times World Enduro Champion), Alfie Cox (9 times Roof of Africa Champion), Daryl Curtis & Riaan van Niekerk. We hosted the first ever KTM Rallye Raid in October 2007 here, which Chris helped Red Cherry Adventures organise. Chris was the route co-ordinator and set out the routes, covering hundreds of kilometres in the Barkly East, Rhodes, Maclear & Lady Grey districts. Comfortable accommodation and similar cottages on neighbouring farms enhance your visit to our spectacular area.

Packaged tours available on request.
